## 2. TJAGSA Materials Available through the Defense Technical Information Center

Each year The Judge Advocate General's School publishes deskbooks and materials to support resident course instruction. Much of this material is useful to judge advocates and government civilian attorneys who are unable to attend courses in their practice areas, and the School receives many requests each year for these materials. Because the distribution of these materials is not in the School's mission, TJAGSA does not have the resources to provide these publications.

To provide another avenue of availability, some of this material is available through the Defense Technical Information

Center (DTIC). An office may obtain this material in two ways. The first is through your installation library. Most libraries are DTIC users and would be happy to identify and order the material for you. If your library is not registered with DTIC, then you or your office/organization may register for DTIC services.

If you require only unclassified information, simply call the DTIC Registration Branch and register over the phone at (703) 767-8273. If access to classified information is needed, then a registration form must be obtained, completed, and sent to the Defense Technical Information Center, 8725 John J. Kingman Road, Suite 0944, Fort Belvoir, Virginia 22060-6218, telephone (commercial) (703) 767-9087, (DSN) 427-9087, toll-free 1-800-225-DTIC, menu selection 6, option 1, fax (commercial) (703) 767-8228, fax (DSN) 426-8228, or e-mail to [reghelp@dtic.mil](mailto:reghelp@dtic.mil).

If you have a recurring need for information on a particular subject, you may want to subscribe to our Current Awareness Bibliography Service, a profile-based product, which will alert you, on a biweekly basis, to the documents that have been entered into our Technical Reports Database which meet your profile parameters. This bibliography is available electronically via e-mail at no cost or in hard copy at an annual cost of \$25 per profile.

Prices for the reports fall into one of the following four categories, depending on the number of pages: \$6, \$11, \$41, and \$121. The majority of documents cost either \$6 or \$11. Lawyers, however, who need specific documents for a case may obtain them at no cost.

You may pay for the products and services that you purchase either by establishing a DTIC deposit account with the National Technical Information Service (NTIS) or by using a VISA, MasterCard, or American Express credit card. Information on establishing an NTIS credit card will be included in your user packet.

You may also want to visit the DTIC Home Page at <http://www.dtic.mil> and browse through the listing of citations to unclassified/unlimited documents that have been entered into the Technical Reports Database within the last eleven years to get a better idea of the type of information that is available. The complete collection includes limited and classified documents as well, but those are not available on the Web.

If you wish to receive more information about DTIC, or if you have any questions, please call the Product and Services Branch at (703)767-9087, (DSN) 427-8267, or toll-free 1-800-225-DTIC, menu selection 6, option 1, or send an e-mail to [bcorders@dtic.mil](mailto:bcorders@dtic.mil).

#### 4. The Legal Automation Army-Wide System Bulletin Board Service

a. The Legal Automation Army-Wide System (LAAWS) operates an electronic on-line information service (often referred to as a BBS, Bulletin Board Service) primarily dedicated to serving the Army legal community, while also providing Department of Defense (DOD) wide access. Whether you have Army access or DOD-wide access, all users will be able to download the TJAGSA publications that are available on the LAAWS BBS.

b. Access to the LAAWS BBS:

(1) Access to the LAAWS On-Line Information Service (OIS) is currently restricted to the following individuals (who can sign on by dialing commercial (703) 806-5772 or DSN 656-5772 or by using the Internet Protocol address 160.147.194.11 or Domain Names jagc.army.mil):

(a) Active Army, Reserve, or National Guard (NG) judge advocates,

(b) Active, Reserve, or NG Army Legal Administrators and enlisted personnel (MOS 71D);

(c) Civilian attorneys employed by the Department of the Army,

(d) Civilian legal support staff employed by the Army Judge Advocate General's Corps;

(e) Attorneys (military or civilian) employed by certain supported DOD agencies (e.g., DLA, CHAMPUS, DISA, Headquarters Services Washington),

(f) All DOD personnel dealing with military legal issues;

(g) Individuals with approved, written exceptions to the access policy.

(2) Requests for exceptions to the access policy should be submitted to:

LAAWS Project Office  
ATTN: Sysop

c. Telecommunications setups are as follows:

(1) The telecommunications configuration for terminal mode is: 1200 to 28,800 baud; parity none; 8 bits; 1 stop bit; full duplex; Xon/Xoff supported; VT100/102 or ANSI terminal emulation. Terminal mode is a text mode which is seen in any communications application other than World Group Manager.

(2) The telecommunications configuration for World Group Manager is:

Modem setup: 1200 to 28,800 baud  
(9600 or more recommended)

Novell LAN setup: Server = LAAWSBBS  
(Available in NCR only)

TELNET setup: Host = 134.11.74.3  
(PC must have Internet capability)

(3) The telecommunications for TELNET/Internet access for users not using World Group Manager is:

IP Address = 160.147.194.11

Host Name = jagc.army.mil

After signing on, the system greets the user with an opening menu. Users need only choose menu options to access and download desired publications. The system will require new users to answer a series of questions which are required for daily use and statistics of the LAAWS OIS. Once users have completed the initial questionnaire, they are required to answer one of two questionnaires to upgrade their access levels. There is one for attorneys and one for legal support staff. Once these questionnaires are fully completed, the user's access is immediately increased. *The Army Lawyer* will publish information on new publications and materials as they become available through the LAAWS OIS.

d. *Instructions for Downloading Files from the LAAWS OIS.*

(1) Terminal Users

(a) Log onto the LAAWS OIS using Procomm Plus, Enable, or some other communications application with the communications configuration outlined in paragraph c1 or c3.

(b) If you have never downloaded before, you will need the file decompression utility program that the LAAWS OIS uses to facilitate rapid transfer over the phone

lines. This program is known as PKUNZIP. To download it onto your hard drive take the following actions:

(1) From the Main (Top) menu, choose "L" for File Libraries. Press Enter.

(2) Choose "S" to select a library. Hit Enter.

(3) Type "NEWUSERS" to select the NEWUSERS file library. Press Enter.

(4) Choose "F" to find the file you are looking for. Press Enter.

(5) Choose "F" to sort by file name. Press Enter.

(6) Press Enter to start at the beginning of the list, and Enter again to search the current (NEWUSER) library.

(7) Scroll down the list until the file you want to download is highlighted (in this case PKZ110.EXE) or press the letter to the left of the file name. If your file is not on the screen, press Control and N together and release them to see the next screen.

(8) Once your file is highlighted, press Control and D together to download the highlighted file.

(9) You will be given a chance to choose the download protocol. If you are using a 2400 - 4800 baud modem, choose option "1". If you are using a 9600 baud or faster modem, you may choose "Z" for ZMODEM. Your software may not have ZMODEM available to it. If not, you can use YMODEM. If no other options work for you, XMODEM is your last hope.

(10) The next step will depend on your software. If you are using a DOS version of Procomm, you will hit the "Page Down" key, then select the protocol again, followed by a file name. Other software varies.

(11) Once you have completed all the necessary steps to download, your computer and the BBS take over until the file is on your hard disk. Once the transfer is complete, the software will let you know in its own special way.

(2) Client Server Users.

(a) Log onto the BBS.

(b) Click on the "Files" button.

(c) Click on the button with the picture of the diskettes and a magnifying glass.

(d) You will get a screen to set up the options by which you may scan the file libraries.

(e) Press the "Clear" button.

(f) Scroll down the list of libraries until you see the NEWUSERS library.

(g) Click in the box next to the NEWUSERS library. An "X" should appear.

(h) Click on the "List Files" button.

(i) When the list of files appears, highlight the file you are looking for (in this case PKZ110.EXE).

(j) Click on the "Download" button.

(k) Choose the directory you want the file to be transferred to by clicking on it in the window with the list of directories (this works the same as any other Windows application). Then select "Download Now."

(l) From here your computer takes over.

(m) You can continue working in World Group while the file downloads.

(3) Follow the above list of directions to download any files from the OIS, substituting the appropriate file name where applicable.

e. To use the decompression program, you will have to decompress, or "explode," the program itself. To accomplish this, boot-up into DOS and change into the directory where you downloaded PKZ110.EXE. Then type PKZ110. The PKUNZIP utility will then execute, converting its files to usable format. When it has completed this process, your hard drive will have the usable, exploded version of the PKUNZIP utility program, as well as all of the compression or decompression utilities used by the LAAWS OIS. You will need to move or copy these files into the DOS directory if you want to use them anywhere outside of the directory you are currently in (unless that happens to be the DOS directory or root directory). Once you have decompressed the PKZ110 file, you can use PKUNZIP by typing PKUNZIP <filename> at the C:\> prompt.

## 6. *The Army Lawyer* on the LAAWS BBS

*The Army Lawyer* is available on the LAAWS BBS. You may access this monthly publication as follows:

a. To access the LAAWS BBS, follow the instructions above in paragraph 4. The following instructions are based on the Microsoft Windows environment.

(1) Access the LAAWS BBS "Main System Menu" window.

(2) Double click on "Files" button.

(3) At the "Files Libraries" window, click on the "File" button (the button with icon of 3" diskettes and magnifying glass).

(4) At the "Find Files" window, click on "Clear," then highlight "Army\_Law" (an "X" appears in the box next to "Army\_Law"). To see the files in the "Army\_Law" library, click on "List Files."

(5) At the "File Listing" window, select one of the files by highlighting the file.

a. Files with an extension of "ZIP" require you to download additional "PK" application files to compress and decompress the subject file, the "ZIP" extension file, before you read it through your word processing application. To download the "PK" files, scroll down the file list to where you see the following:

PKUNZIP.EXE  
PKZIP110.EXE  
PKZIP.EXE  
PKZIPFIX.EXE

b. For each of the "PK" files, execute your down-

load task (follow the instructions on your screen and download each "PK" file into the same directory. *NOTE: All "PK" files and "ZIP" extension files must reside in the same directory after downloading.* For example, if you intend to use a WordPerfect word processing software application, you can select "c:\wp60\wpdocs\ArmyLaw.art" and download all of the "PK" files and the "ZIP" file you have selected. You do not have to download the "PK" each time you download a "ZIP" file, but remember to maintain all "PK" files in one directory. You may reuse them for another downloading if you have them in the same directory.

(6) Click on "Download Now" and wait until the Download Manager icon disappears.

(7) Close out your session on the LAAWS BBS and go to the directory where you downloaded the file by going to the "c:\:" prompt.

For example: c:\wp60\wpdocs  
or C:\msoffice\winword

Remember: The "PK" files and the "ZIP" extension file(s) must be in the same directory!

(8) Type "dir/w/p" and your files will appear from that directory.

(9) Select a "ZIP" file (to be "unzipped") and type the following at the c:\ prompt:

PKUNZIP JULY.ZIP

At this point, the system will explode the zipped files and they are ready to be retrieved through the Program Manager (your word processing application).

b. Go to the word processing application you are using (WordPerfect, MicroSoft Word, Enable). Using the retrieval process, retrieve the document and convert it from ASCII Text (Standard) to the application of choice (WordPerfect, Microsoft Word, Enable).

c. Voila! There is *The Army Lawyer* file.

d. In paragraph 4 above, *Instructions for Downloading Files from the LAAWS OIS* (section d(1) and (2)), are the instructions for both Terminal Users (Procomm, Procomm Plus, Enable, or some other communications application) and Client Server Users (World Group Manager).

e. Direct written questions or suggestions about these instructions to The Judge Advocate General's School, Literature and Publications Office, ATTN: DDL, Mr. Charles J.
