A Message from the Chief, Civilian Senior Leader Development Division [Edit](#)

Civilian senior leader eligibility for the Civilian Talent Management Program (CTMP) is changing with the ongoing conversion from NSPS to GS classification systems. The CTMP definition for Applicants eligibles remains the same, yet former NSPS employees now classified at the GS-14 level are not eligible for noncompetitive placement into the Army Enterprise Positions. While HQDA continues to view this talented group of motivated employees as civilian senior leaders, the CTMP Policy defines only GS-15 equivalents as eligible for AEP placement.

The CTM Division is retaining the CTM System data submitted by formerly validated GS-14 employees for further review and analysis as HQDA discusses the way ahead for civilian senior leader programs

SETM Board Review and Analysis

- **Competence Assessment of Candidates**
 - Performance and Potential
 - Statement of Interest
 - Rater's Assessment
 - Endorser's Assessment
 - Functional Chief Representative
 - Executive Core Qualifications
 - Candidates' Resumes
- **Training Education**
- **Utilization and Assignments**
- **SETM Packets**

Competence Assessment of Candidates (1 of 7)

- **Performance and Potential:**
 - Comments that clearly articulated a candidate's performance and future potential viewed as a plus.
 - Weak comments sent a clear message to the board and pondered rating chain's support of candidate.
 - Length of time candidates spent in the assignments coupled with Executive Core Qualifications (ECQs) that represent the critical leadership skills were positives.
 - The five documents that helped produce the most accurate snapshot of the candidates were the Statement of Interest, Raters' Assessment, Endorsers' Assessment, ECQs submitted by the candidates and candidates' resumes.

Competence Assessment of Candidates (2 of 7)

- **Statement of Interest:**

- That clearly articulated a goal and path using the SETM programs as developmental vehicles to achieve the goal set the stage for the board member.
- The statement of interest was the first look at the candidates' ability to construct a vision and develop this vision into a tangible end state through written communication.
- Error free, well-constructed statements of interest with a logical flow were a plus.

Competence Assessment of Candidates (3 of 7)

- **Rater's Assessment:**

- Raters did not routinely send clear and consistent messages reflecting performance and potential.
- Raters should be educated on the impact of inconsistent messaging.
- Raters that distinguished excellence in the performance of their employee painted a picture of potential and confidence in the employee's ability to perform at higher levels.
- High ratings must be justified and measurable.

Competence Assessment of Candidates (4 of 7)

- **Endorser's Assessment:**

- Carried a lot of weight when the verbiage correlated with the score assigned to each competency.
- Endorsers were most effective when their rating reflected the competency demonstrated by the applicants as major parts of their responsibility.
- The Board weighs heavily on endorsers' inputs.
- Endorsers are encouraged to help manage their highly performing employees' careers.

Competence Assessment of Candidates (5 of 7)

- **Functional Chief Representative (FCR):**
 - FCR endorsements are an asset to the board.
 - FCR endorsements that expressed the applicant's accomplishments, developmental needs and rating within the career program was informative to the board.

Competence Assessment of Candidates (6 of 7)

- **Executive Core Qualifications (ECQs):**

- The ECQs define the competencies needed to build a federal corporate culture that drives for results, serves customers and builds successful teams and coalitions within and outside the organization.
- Each core qualification has sub-components. Each sub-component of the ECQs should be addressed as completely as possible.
- In many cases, candidates' ECQs were not complete and did not correlate with their individual accomplishments versus accomplishments of a team or group. CLDO recommends candidate and rating chain seek SES involvement to properly prepare ECQs.

Competence Assessment of Candidates (7 of 7)

- **Candidates' Resumes:**

- Having a solid and effective resume greatly improved applicant chances for selection.
- Putting the most important information first; previous work experience, generally was the most effective resumes.
- Back up qualities and strengths, instead of listing responsibilities, list and describe professional achievements with quantifiable and tangible examples that demonstrate results and outcomes.
- Incomplete documentation sent a negative message to the Board.

Training and Education

- Although Civilian education is a prerequisite and Bachelor's Degree is a requirement for Professional Military Education (PME) programs, higher degrees did not impact candidates negatively or positively.
- The Board tended to view developmental courses completed, like the Civilian Education System Advanced Course, positively, showing that individuals were lifelong learners and concerned with their professional development.

Utilization and Assignments

- The Board viewed applicants' records that displayed outstanding service in a range of diverse assignments, which showed normal progression, to include special assignments.
- It is essential that leaders in the field place high performing subordinates in career enhancing and professional growth assignments.
- The board considered the length of time the applicant has been in their current assignment to see if they had enough time to make contributions and accomplish organizational goals.
- Accomplishments should have been quantifiable and measurable.

SETM Packets

- The overall quality and content of a packet is the first representation of a candidate view by the Board.
- Packets missing documents were considered incomplete and not considered by the board. **We strongly recommend candidates to request their transcripts immediately. Transcripts received after CLDO's deadline are viewed as an incomplete packet.**
- It was imperative that candidates, leaders, and Command representatives started the packets early and paid close attention to detail to the general content of each packet.
- Applicants are highly encouraged to compete for multiple programs.
